UV exposure is the cause of around 99% of non-melanoma skin cancers and 95% of melanomas.

SunSmart event tips.

UV exposure is an important WH&S consideration. Ensure event staff and volunteers:

- Wear bucket, legionnaire, or broad-brim hats, sun protective clothing and sunglasses
- Have SPF50 or SPF50+ sunscreen available
- Have access to adequate shade
- Check the UV on the Global SunSmart UV App
- Follow the the 5 S's of SunSmart
